Woman's Day 2022 @ Anantha Law College

International Woman's Day March 8th is a global day celebrating the social, economic, cultural and political achievements of women. The day also marks a call to action for accelerating gender parity. Significant activity is witnessed worldwide as groups come together to celebrate women's achievements.

Marked annually on March 8th, International Women's Day (IWD) is one of the most important days of the year to: celebrate women's achievements, raise awareness about women's equality

Imagine a gender equal world. A world free of bias, stereotypes and discrimination. A world that's diverse, equitable, and inclusive. A world where difference is valued and celebrated. Together we can forge women's equality. Collectively we can all #BreakTheBias---The theme for the year 2022.

International Women's Day is not country, group, nor organization specific. No one government, NGO, corporation, academic institution, women's network, or media hub is solely responsible for IWD. The day belongs to all groups collectively everywhere.

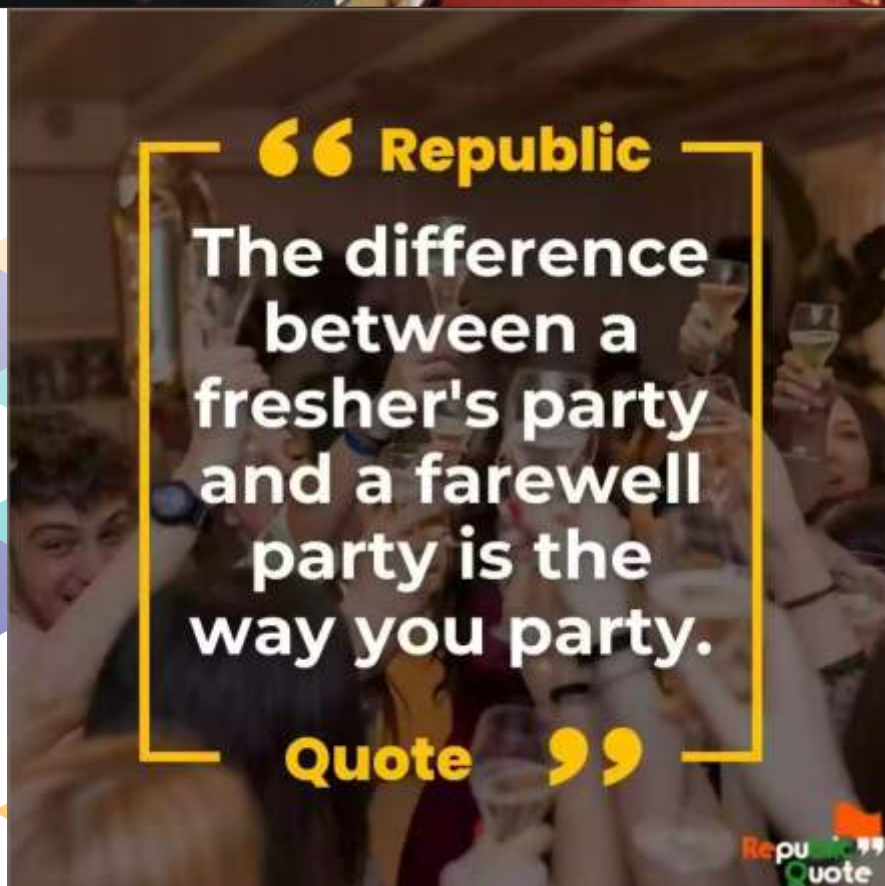

Anantha Law College has celebrated this event with Great Spirit. Management had hosted a lavish lunch and Principal, Ms. Dr. M. V. Chandramathi gave away gifts to all women staff (Teaching and Admin). The striking aspect at Anantha Law College is 99 percent are women and that shows the respect and importance given by the management to women.

Programme schedule: Dr. M. V. Chandramathi Principal Ananntha Law College is chairing in the Plenary Session. along with Prof G.Haragopal Professor Emeritus, University of Hyderabad .

Faculty team of Ananntha Law College attended the seminar on both days i.e., on 13th and 14th April 2022. It was a wealth of knowledge presented by many speakers at one time in one place. A lot of 'learning' at one clip, with most material compressed into two days but worth the time. Attending a seminar has numerous benefits, including, gaining expert knowledge, networking with others and renewing motivation and confidence.

The Essence of what the domain experts spoke:

Asymmetric constitutional provisions are a common feature of federalism in diverse societies. Many have argued that India sets an international example for how asymmetric features can help dampen secessionist conflicts by recognising multiple modes of belonging within the Union. Rather than encouraging secessionism, proponents of asymmetric arrangements argue that it is the denial of autonomy that can provide ground for secessionist claims to grow.

Placing this kind of flexibility in the hands of the Central government was deliberate and designed to enable decisive Central action to protect national integrity in the aftermath of Partition. In the Constituent Assembly, B.R. Ambedkar highlighted the difference between the 'tight mould' of other federal systems and the flexibility hard-wired into India's which would enable it to be both 'unitary as well as federal' according to the requirements of time and circumstances.
